

# TAKE CONTROL OF PLOT FERTILITY

The first to market food plot Liquid Lime, PLOT DR has been offering a range of industry proven products to boost fertility and maximize growth for over a decade. Our evolving product line includes soil amendments and superior fertilizers formulated to fit the needs of our customers. PLOT DR sets itself apart in the industry by combining the right chemistries with education and grower relationships. As a PLOT DR Dealer, you are one of our trusted and educated partners helping hunters become farmers.

**Our long-time best seller, PLOT DR LIQUID LIME, was created with a purpose. It offers food plotters an excellent alternative to other forms of lime, and is designed to provide rapid pH adjustment in one easy pass. It is not a replacement for ag or pelletized lime, rather a tool to be used in situations where quantity of material, price, time, or equipment are limiting factors.**

## PLOT DR LIQUID LIME

- 24% Calcium Carbonate – the proper chemistry to change pH!
- Sub-micron particle size provides rapid pH adjustment
- Improves soil structure
- Provides calcium nutrition to the plant
- Offers efficiency in time and labor
